Statement of the 4th Global Regional Committees Conference of the Chin National Front

1. The 4th Global Regional Committees Conference of the Chin National Front was successfully held from November 13-15, 2025, in Kuala Lumpur, Malaysia. The conference was attended by (67) representatives from regional committees across (13) countries.
2. The conference reviewed and approved the activity reports of each regional committee. It also reviewed the regional committees' bylaws, assessed the current revolutionary situation, and outlined future action plans.
3. The conference urges all Chin people living abroad to actively participate in and support the Chinland Club (Diamond Club, Gold Club, Silver Club) to further strengthen the Chin National Front's nation-building efforts. It also calls on all patriotic individuals who share our vision to contribute financially to the Chin National Front's national revolutionary struggle. In particular, the conference encourages religious organizations, youth groups, women's groups, and civil society organizations to actively join and support the Chinland Club, which has remained institutionally strong for nearly two decades.
4. We express our deep appreciation to Malaysia for its efforts during 2025 ASEAN Chairmanship to seek political solution for the Myanmar's conflict and to provide humanitarian assistance. We call on neighboring countries, including future ASEAN chairs, and the broader international community to provide more effective support for achieving lasting peace and development in the Union through the establishment of a federal democratic system.
